Her paintings of dreams are developing its deepness and content with unbelievable colorful beauty. She uses the remarkable original technics with the wax to paint on the velvet. The wax is a substance which does keep its quality for ages, gives to the pictures „wet effect“ , brightness and the look of flash. The pictures are well save due to saving cover of wax. She focuses on developing of the new technics. She concentrates on every small detail done with the brush to finish her work. These pictures are actually the european rarity.
